The directors consider that the Company is entitled to exemption from audit under section 477 of the Companies Act 2006 and members have not required the Company to obtain an audit for the year in question in accordance with section 476 of the Companies Act 2006.

The directors acknowledge their responsibilities for complying with the requirements of the Companies Act 2006 with respect to accounting records and the preparation of financial statements.

The Company's financial statements have been prepared in accordance with the provisions applicable to companies subject to the small companies regime.

The financial statements were approved and authorised for issue by the board and were signed on its behalf on 10 December 2021.

Christopher Matchette-Downes
Director

The notes on pages 4 to 11 form part of these financial statements.

CARIBX (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2021

1. General information

The Company is a private corporation with limited liability incorporated in England & Wales with its registered office and principal place of business at Cedar House, Glade Road, Marlow, Bucks SL7 1DQ.

The business of the Company is to explore for oil and gas in and around the Caribbean Sea.

2. Accounting policies

2.1 Basis of preparation of financial statements

The financial statements have been prepared under the historical cost convention unless otherwise specified within these accounting policies and in accordance with Financial Reporting Standard 102, the Financial Reporting Standard applicable in the UK and the Republic of Ireland and the Companies Act 2006.

The preparation of financial statements in compliance with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise judgment in applying the Company's accounting policies (see note 3).

The following principal accounting policies have been applied:

2.2 Going concern

The company is in a net liability position and has commitments to substantial expenditure if it is to fulfil its obligations on its current Main Cape licence. The cost may exceed currently available resources.

The directors however consider that sufficient sources of funding will continue to be available for the foreseeable future to enable the company to discharge its financial liabilities as and when they fall due. The financial statements are accordingly drawn up on a Going Concern basis.

CARIBX (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS For the Year Ended 31 March 2021

2. Accounting policies (continued)

2.3 Foreign currency translation

Functional and presentation currency

The Company's functional and presentational currency is GBP.

Transactions and balances

Foreign currency transactions are translated into the functional currency using the spot exchange rates at the dates of the transactions.

At each period end foreign currency monetary items are translated using the closing rate. Non-monetary items measured at historical cost are translated using the exchange rate at the date of the transaction and non-monetary items measured at fair value are measured using the exchange rate when fair value was determined.

Foreign exchange gains and losses resulting from the settlement of transactions and from the translation at period-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in profit or loss except when deferred in other comprehensive income as qualifying cash flow hedges.

Foreign exchange gains and losses that relate to borrowings and cash and cash equivalents are presented in the Statement of income and retained earnings within 'finance income or costs'. All other foreign exchange gains and losses are presented in profit or loss within 'other operating income'.

2.4 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured as the fair value of the consideration received or receivable, excluding discounts, rebates, value added tax and other sales taxes. The following criteria must also be met before revenue is recognised:

Rendering of services

Revenue from a contract to provide services is recognised in the period in which the services are provided in accordance with the stage of completion of the contract when all of the following conditions are satisfied:

- the amount of revenue can be measured reliably;
- it is probable that the Company will receive the consideration due under the contract;
- the stage of completion of the contract at the end of the reporting period can be measured reliably; and
- the costs incurred and the costs to complete the contract can be measured reliably.

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2021

2. Accounting policies (continued)

2.5 Oil and gas costs

The Group follows a successful efforts based accounting policy for oil and gas assets.

Costs incurred prior to obtaining the legal rights to explore an area are expensed immediately to the Profit and Loss Account.

Expenditure incurred on the acquisition of a licence interest is initially capitalised on a licence by licence basis. Costs are held, undepleted, within exploration assets until such a time as the exploration phase on the licence area is complete or commercial reserves have been discovered.

Exploration expenditure incurred in the process of determining exploration targets is capitalized initially within exploration assets and subsequently allocated to drilling activities. Exploration drilling costs are initially capitalised on a well by well basis until the success or otherwise of the well has been established. The success or failure of each exploration effort is judged on a well by well basis. Drilling costs are written off on completion of a well unless the results indicate that hydrocarbon reserves exist and there is a reasonable prospect that these reserves are commercial.

Following appraisal of successful exploration wells, if commercial reserves are established and technical feasibility for extraction demonstrated, then the related capitalised exploration and appraisal costs are transferred into a single field cost centre within development/producing assets after testing for impairment (see below). Where results of exploration drilling indicate the presence of hydrocarbons which are ultimately considered not commercially viable, all related costs are written off to the Profit and Loss Account.

All costs incurred after the technical feasibility and commercial viability of producing hydrocarbons have been demonstrated are capitalised within development/producing assets on a field by field basis. Subsequent expenditure is capitalised only where it either enhances the economic benefits of the development/producing asset or replaces part of the existing development/producing asset. Any costs remaining associated with the replaced asset part are expensed.

2.6 Interest income

Interest income is recognised in profit or loss using the effective interest method.

2.7 Finance costs

Finance costs are charged to profit or loss over the term of the debt using the effective interest method so that the amount charged is at a constant rate on the carrying amount. Issue costs are initially recognised as a reduction in the proceeds of the associated capital instrument.

2.8 Borrowing costs

All borrowing costs are recognised in profit or loss in the year in which they are incurred.

CARIBX (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2021

2. Accounting policies (continued)

2.9 Taxation

Tax is recognised in profit or loss except that a charge attributable to an item of income and expense recognised as other comprehensive income or to an item recognised directly in equity is also recognised in other comprehensive income or directly in equity respectively.

The current income tax charge is calculated on the basis of tax rates and laws that have been enacted or substantively enacted by the balance sheet date in the countries where the Company operates and generates income.

2.10 Valuation of investments

Investments in subsidiaries are measured at cost less accumulated impairment.

2.11 Debtors

Short term debtors are measured at transaction price, less any impairment. Loans receivable are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method, less any impairment.

2.12 Cash and cash equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in no more than three months from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

2.13 Creditors

Short term creditors are measured at the transaction price. Other financial liabilities, including bank loans, are measured initially at fair value, net of transaction costs, and are measured subsequently at amortised cost using the effective interest method.

3. Judgments in applying accounting policies and key sources of estimation uncertainty

The preparation of the financial statements requires management to make judgements, estimates and assumptions that affect the amounts reported for assets and liabilities as at the balance sheet date and the amounts reported for revenues and expenses during the year. However, the nature of estimation means that actual outcomes could differ from those estimates.

4. Employees

The average monthly number of employees, including the directors, during the year was as follows:

	2021 No.	2020 No.
Directors	3	3

CARIBX (UK) LIMITED

NOTES TO THE FINANCIAL STATEMENTS
For the Year Ended 31 March 2021

5. Directors' remuneration

No director received any remuneration but fees were paid for professional services to businesses owned by Christopher Matchette-Downes and Rory Scott Russell. For further details, see Note 15.

6. Taxation

	2021 £	2020 £
Foreign tax		
Foreign tax on income for the year	-	42
	<u>-</u>	<u>42</u>
Total current tax	<u>-</u>	<u>42</u>
Deferred tax		
Total deferred tax	<u>-</u>	<u>-</u>
Taxation on profit on ordinary activities	<u>-</u>	<u>42</u>

Factors affecting tax charge for the year

The tax assessed for the year is higher than (2020 - higher than) the standard rate of corporation tax in the UK of 19% (2020 - 19%). The differences are explained below:

	2021 £	2020 £
Loss on ordinary activities before tax	<u>(625,466)</u>	<u>(212,831)</u>
Loss on ordinary activities multiplied by standard rate of corporation tax in the UK of 19% (2020 - 19%)	<u>(118,839)</u>	<u>(40,438)</u>
Effects of:		
Higher rate taxes on overseas earnings	-	42
Unrelieved tax losses carried forward	<u>118,839</u>	<u>40,438</u>
Total tax charge for the year	<u>-</u>	<u>42</u>

Factors that may affect future tax charges

At the Balance Sheet date, losses of £1,977,513 are available to offset future profits that are subject to corporation tax in the United Kingdom.
